

4:e Sprint

Sprint starts: Tuesday, 11/10, Lv7

Sprint ends: Tuesday, 18/10, Lv8

Sprint Planning

Remaining tasks from last sprint:

Raha: As a non English speaking user I want to be able to change the application language so that I can understand the text in the application. [13]

User Stories to do this sprint(User stories divided into tasks in Trello):

Elin & Jennifer: As a user I want to be matched with someone directly after I have finished the wizard [8]

Elin & Johan: As a user I want an aesthetically pleasing . [8]

Raha & Jennifer: As a User I would like to have different views for language settings and my profile page.[8]

Raha: As a user I want to have a nice logo and a name on the applicaton that is easy to recognize . [5]

John & Gustav: As a user, I'd like messages from my mentor/student to be sent to me without me having to reload the whole chat. [8]

Jennifer: As a user I want to be notified if I don't find a match. [5]

Elin: As a mentor/student, I want to know what is expected of me when I use the app. [5]

Gustav: As a user I don't want to be able to go back to the first time setup when I'm done with it.[5]

Our velocity for this sprint is: 47

Sprint Review

We have implemented the following tasks:

Raha: Designed the logo for the app, translated everything in persian and translated 60% to arabic.

Raha & Jennifer: Designed the settings page and implemented a separate language setting.

Elin: I have removed one page in the wizard and created an information dialog on the mentor page. I also removed the progress bar on the language page.

Elin & Johan: We've refined the wizard experience, both in terms of layout and colouring.

John & Gustav: Auto update chat and matches.

Jennifer: You get a notification when you don't get a match.

Elin & Jennifer: you are now matched directly after finishing the wizard.

Gustav: Fixed the back button on the main screen, made sure that the wizard is closed when it's done. You can now also use the back button to close the application the first time you open it. Updated the colour of the wizard progress indicator and the chat bubbles so that they're in line with the rest of the application.

Sprint Retrospective

1. How did it go working with our tasks in the last sprint?

a. What went well?

- It was easy to work with colors
- Everyone liked one of the logos that was designed
- The teamwork went well

b. What went less well?

- Nothing specific to point out

2. Of what went less well, how will we improve it?

a. N/A

3. Something special someone learned that would be good to to share with the rest of the team?

Nothing special to be shared this week
